

Centre for Gender Equity Studies

Gender Sensitisation Action Plan

2022 - 2023

- The Centre intends to create a comprehensive and complete understanding of various aspects of gender studies in the students through the organisation of multiple events and competitions.
- The Centre will pursue collaborations with various organisations which will allow students to engage with various aspects of gender and gender equity.
- Various seminars, lectures, talks and webinars conducted by experts in varied fields will be organised to inculcate sensitivity and awareness regarding gender related issues in students.
- The Centre will undertake research projects wherein students will explore various gender related issues as well as engage with policy making strategies to address those issues.
- Commemorative events will be held to celebrate various national and international days related to gender issues.
- Regular discussion forums will be conducted wherein students will be given an opportunity to express their opinions related to various significant and relevant topics.
- Students will be encouraged to pursue internships with various organisations so that they can engage with gender related issues on the ground level.
